----------	---	-----------

1 Introduction

This document is a guide for Ahsay Mobile Customization for new users who want to customize their experience in Ahsay's backup solution. This guide primarily concerns the look and feel of the Ahsay Mobile barebones application.

The user is guided through each screen of Ahsay Mobile and the list of customizable colors and icons per screen. The user can then provide the necessary files to create their customized backup application.

1.1 File customization

The primary file modifications for customization of the look and feel are the following:

- Application images – these are the images that are used for icons and other graphics within the various application screens.
- Application icon – this is the icon that is shown on the Home screen for both iOS and Android devices. Each OS will have different specifications for customization.
- Splash screen (iOS) – this is the starting screen shown when the application is opened when inactive.
- Colors dictionary (.json extension) – this shows four colors that can be modified for customization of font color, background color and other modifiable elements.
- Localization – Currently, Ahsay Mobile supports 31 languages customizable by the user for translation.
- Adverts – Ads can be customized by the user by preference and by language. More details will be explained on the Home page.

1.2 Colors

The colors for the Ahsay Mobile application are defined in the colors.json file. They are a major component in customization of Ahsay Mobile. The colors.json file has the syntax:

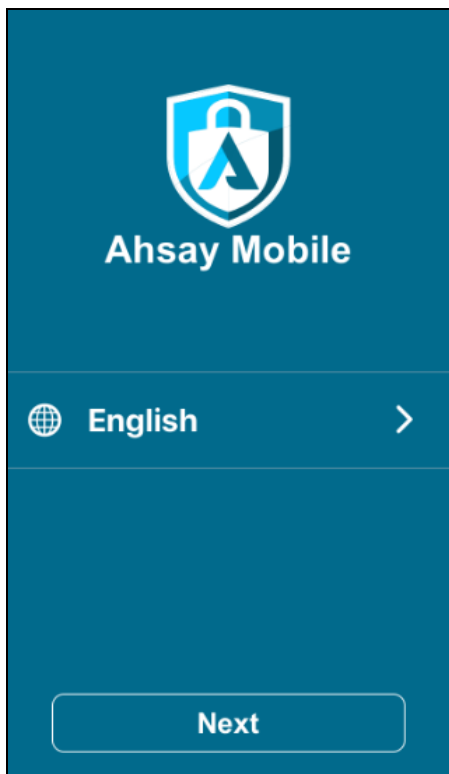

```
{
  "primaryThemeColor": "#016A8C",
  "primaryFontColor": "#FFFFFF",
  "secondaryThemeColor": "#FFF",
  "secondaryFontColor": "#000"
}
```

There are four colors that can be modified by the user with their own style. All colors must adhere to the hexadecimal format preceded with the # symbol and can only be six digits (#000000 - #FFFFFF) or three digits (#000 - #FFF). The color key on the JSON file must not be changed.

- Primary theme (JSON key: primaryThemeColor) – this is the primary color that will be changed for text customization and background color customization for Ahsay Mobile.
- Primary font (JSON key: primaryFontColor) – this is the primary font color mainly used when the primary theme color is used for the background in some screens.
- Secondary theme (JSON key: secondaryThemeColor) – this is the secondary color used on some screens where the primary theme color is used for text emphasis.
- Secondary font (JSON key: secondaryFontColor) – this is used in conjunction with the secondary theme color and as an alternate to the primary font color.

Examples:

Case A

In this example, the primaryThemeColor is used as a background and all the text uses the primaryFontColor.

Case B

In this example, the primaryThemeColor is used on the application header, page header text and the background color of the Done button for this screen. The background color of the screen and color of the Done text uses the secondaryThemeColor. All other texts uses secondaryFontColor.

For more detailed descriptions on the colors each screen element uses, please refer to the [Application Pages](#) section.

1.3 Localization

For further customization, the user can also modify all the wordings for the application in two ways:

- Localization files within the application
- Localization files for app notifications (notifications.xml)

Languages

Ahsay Mobile can support customization for 31 languages. Each language corresponds to a locale code, which is useful for localization files submitted by the user for customization.

Language	Locale Code
Base (English)	en
Arabic	ar
Catalan	ca
Czech	cs
Danish	da
German	de
Greek	el
Spanish	es
Basque	eu
Finnish	fi
French	fr
Hebrew	iw
Hungarian	hu
Indonesian	in
Italian	it
Japanese	ja
Korean	ko
Lithuanian	lt
Dutch	nl
Norwegian	no
Polish	pl
Portuguese - Brazil	pt-BR
Portuguese - Portugal	pt-PT
Russian	ru
Slovenian	sl
Swedish	sv
Thai	th
Turkish	tr

Vietnamese	vi
Chinese – Simplified	zh_CN
Chinese – Traditional	zh_TW

Common – Localization files within the application

A localization file is a JSON file containing a key used by Ahsay Mobile to fetch the corresponding localized value. Ahsay Mobile supports 31 languages therefore any user can supply up to 31 localization files to Ahsay for their customized backup solution. Each localization file has the filename: locale-code.json. For customization, the user will only need to provide a localization file for each language. Refer to the table below for the corresponding localization file. As with customizing theme colors for the look and feel, the user cannot change the key of the JSON entry.

The user needs to customize 4 different areas for each language (App, Android, iOS and Advertisement). A sample of the language files are attached in AhsayMobileCustomization.zip and advertisement.zip.

Language	App (Localization File)	Android	iOS	Advertisement
Base (English)	/App/en.json	/Text/Android/values/*	/Text/iOS/en.lproj/*	ad-en.json
Arabic	/App/ar.json	/Text/Android/values-ar/*	/Text/iOS/ar.lproj/*	ad-ar.json
Catalan	/App/ca.json	/Text/Android/values-ca/*	/Text/iOS/ca.lproj/*	ad-ca.json
Czech	/App/cs.json	/Text/Android/values-cs/*	/Text/iOS/cs.lproj/*	ad-cs.json
Danish	/App/da.json	/Text/Android/values-da/*	/Text/iOS/da.lproj/*	ad-da.json
German	/App/de.json	/Text/Android/values-de/*	/Text/iOS/de.lproj/*	ad-de.json
Greek	/App/el.json	/Text/Android/values-el/*	/Text/iOS/el.lproj/*	ad-el.json
Spanish	/App/es.json	/Text/Android/values-es/*	/Text/iOS/es.lproj/*	ad-es.json
Basque	/App/eu.json	/Text/Android/values-eu-rES/*	/Text/iOS/eu.lproj/*	ad-eu.json
Finnish	/App/fi.json	/Text/Android/values-fi/*	/Text/iOS/fi.lproj/*	ad-fi.json
French	/App/fr.json	/Text/Android/values-fr/*	/Text/iOS/fr.lproj/*	ad-fr.json
Hebrew	/App/iw.json	/Text/Android/values-iw/*	/Text/iOS/he.lproj/*	ad-iw.json
Hungarian	/App/hu.json	/Text/Android/values-hu/*	/Text/iOS/hu.lproj/*	ad-hu.json

		lues-hu/*		
Indonesian	/App/in.json	/Text/Android/values-in/*	/Text/iOS/id-lproj/*	ad-in.json
Italian	/App/it.json	/Text/Android/values-it/*	/Text/iOS/it-lproj/*	ad-it.json
Japanese	/App/ja.json	/Text/Android/values-jp/*	/Text/iOS/ja-lproj/*	ad-ja.json
Korean	/App/ko.json	/Text/Android/values-ko-KR/*	/Text/iOS/ko-KR-lproj/*	ad-ko.json
Lithuanian	/App/lt.json	/Text/Android/values-lt/*	/Text/iOS/lt-lproj/*	ad-lt.json
Dutch	/App/nl.json	/Text/Android/values-nl/*	/Text/iOS/nl-lproj/*	ad-nl.json
Norwegian	/App/no.json	/Text/Android/values-no/*	/Text/iOS/nb-NO-lproj/*	ad-no.json
Polish	/App/pl.json	/Text/Android/values-pl/*	/Text/iOS/pl-lproj/*	ad-pl.json
Portuguese - Brazil	/App/pt_BR.json	/Text/Android/values-pt-rBR/*	/Text/iOS/pr-BR-lproj/*	ad-pt_BR.json
Portuguese - Portugal	/App/pt_PT.json	/Text/Android/values-pt-rPT/*	/Text/iOS/pt-PT-lproj/*	ad-pt_PT.json
Russian	/App/ru.json	/Text/Android/values-ru/*	/Text/iOS/ru-lproj/*	ad-ru.json
Slovenian	/App/sl.json	/Text/Android/values-sl/*	/Text/iOS/sl-lproj/*	ad-sl.json
Swedish	/App/sv.json	/Text/Android/values-sv/*	/Text/iOS/sv-lproj/*	ad-sv.json
Thai	/App/th.json	/Text/Android/values-th/*	/Text/iOS/th-TH-lproj/*	ad-th_TH.json
Turkish	/App/tr.json	/Text/Android/values-tr/*	/Text/iOS/tr-lproj/*	ad-tr.json
Vietnamese	/App/vi.json	/Text/Android/values-vi/*	/Text/iOS/vi-lproj/*	ad-vi.json
Chinese – Simplified	/App/zh_CN.json	/Text/Android/values-rCN/*	/Text/iOS/zh-Hans-lproj/*	ad-zh_CN.json
Chinese – Traditional	zh_TW.json	/Text/Android/values-zh-rTW/*	/Text/iOS/zh-Hant-lproj/*	ad-zh_TW.json

Here is a sample JSON for English:

```
{
  "appName": "Ahsay Mobile",
  "appNameShort": "Ahsay Mobile",
  "clientAppName": "Ahsay Mobile",
  "home": "Home",
  "myAccounts": "My Accounts",
  "settings": "Settings",
  "loginVerification": "Login Verification",
  "language": "Language",
  ....
  "noActivityInLogPage": "There is no activity to log yet",
  "Photos": "Photos",
  "Videos": "Videos",
  "photosCompleted": "Photos Completed",
  "videosCompleted": "Videos Completed",
  "terminatedDueToNotCharging": "#{fileIdx} Terminated due to not
charging",
  "downloadServerDB": "Download server db",
  "restoreStart": "Restore Start",
  "allRestoreCompleted": "All Restore Completed",
  "registered2FASuccessfully": "Registered 2FA Successfully",
  "cause": "Cause"
}
```

2 Application Pages

All the pages can be customized using images provided by the user. All the images must follow the dimensions provided by this document. Pages in the application are also affected by changes in colors.json. This list will not include all the images on the app but only those that correspond to the primary theme color. Each image that is shown has an original version and two other bigger versions @2x, which means that it is 2 times wider than the original and @3x being 3 times wider than the original. The image previews below are from Ahsay Mobile and not all image previews have a 1x1 dimension.

A sample of the image files can be downloaded from

<https://download.ahsay.com/support/document/v8/AhsayMobileCustomization.zip>

2.1 Loading Screen

Images

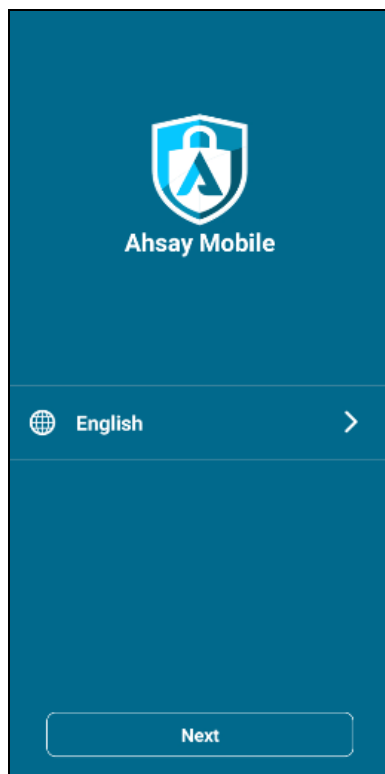

File name	Preview	Extension	Dimensions (width x height)	Usage
loadingAppIcon		png	144x144	Initial loading
loadingAppIcon @2x		png	288x288	Initial loading

loadingApplcon @3x		png	432x432	Initial loading
-----------------------	---	-----	---------	-----------------

Colors

Usage	Color Key	Description
Background	primaryThemeColor	Background for onboarding page

2.2 Onboarding Screen

Images

File name	Preview	Extension	Dimensions (width x height)	Usage
logo		png	103x120	First time application setup
logo@2x		png	206x240	First time application setup

logo@3x		png	309x360	First time application setup
---------	---	-----	---------	------------------------------

2.3 Home Page – Adverts and News (Common Elements)

Images

File name	Preview	Extension	Dimensions (width x height)	Usage
ico-home-blue-box		png	40x40	Home menu logo
ico-home-blue-box@2x		png	80x80	Home menu logo

ico-home-blue-box@3x		png	120x120	Home menu logo
app-icon		png	200x200	Application Header – common on all pages
app-icon@2x		png	400x400	Application Header – common on all pages
logo@3x		png	800x800	Application Header

Colors

Usage	Color Key	Description
Background	secondaryThemeColor	Background for Home Page – common on all pages
App Title	primaryFontColor	Application Title – common on all pages

Adverts for Home Page

Users can customize their own adverts for submission to Ahsay for their customized backup solution as long as they follow the following format. There are also advert files for each supported language.

```
{
  "ads": [
    {
      "title": "A customer's review on Capterra",
      "imgUrl": "https://www.ahsay.com/images/common/news-20201021.png",
      "imgLink": "https://www.ahsay.com/jsp/en/contact/ahsay-contact.jsp",
      "text": "Here's a review on Capterra from a customer who's been using our Ahsay Cloud Backup Suite for 2 years. Thanks for the nice review, Mike! We'll keep enhancing our product and service to meet and exceed your needs. For other reviews on Capterra, click here: capterra.com/p/60409/Ahsay-Offsite-Backup-Server/#reviews",
      "date": "2020-10-21T11:18:00"
    }
  ]
}
```

Language	Locale Code	Advert Localization File (ad-\$localecode\$.JSON)
Base (English)	en	ad-en.json
Arabic	ar	ad-ar.json
Catalan	ca	ad-ca.json
Czech	cs	ad-cs.json
Danish	da	ad-da.json
German	de	ad-de.json
Greek	el	ad-el.json
Spanish	es	ad-es.json
Basque	eu	ad-eu.json
Finnish	fi	ad-fi.json
French	fr	ad-fr.json
Hebrew	iw	ad-iw.json
Hungarian	hu	ad-hu.json
Indonesian	in	ad-in.json
Italian	it	ad-it.json
Japanese	ja	ad-ja.json
Korean	ko	ad-ko.json
Lithuanian	lt	ad-lt.json
Dutch	nl	ad-nl.json
Norwegian	no	ad-no.json

Polish	pl	ad-pl.json
Portuguese - Brazil	pt-BR	ad-pt_BR.json
Portuguese - Portugal	pt-PT	ad-pt_PT.json
Russian	ru	ad-ru.json
Slovenian	sl	ad-sl.json
Swedish	sv	ad-sv.json
Thai	th	ad-th_TH.json
Turkish	tr	ad-tr.json
Vietnamese	vi	ad-vi.json
Chinese – Simplified	zh_CN	ad-zh_CN.json
Chinese – Traditional	zh_TW	ad-zh_TW.json

A sample of the Advertisement .JSON files can be downloaded from <https://download.ahsay.com/support/document/v8/advertisement.zip>

The JSON will contain only one array of “ads”. Each ad has this structure that corresponds to the Ads UI on the Home page. You can refer to the sample below. All fields in the structure are mandatory except for imgLink, which will allow the image shown in the ad to be clickable and will open the link on imgLink if the image is clicked in the UI.

Advert object structure

Field	Description	Mandatory
title	Title of the advert	Yes
imgUrl	Link of an image that is shown for the advert	Yes
imgLink	If the image was tapped, this link will open in the browser.	No
text	Details of the advert. The text can also support URLs. For example: http://www.yahoo.com is automatically converted to yahoo.com	Yes
date	Date when advert was created	Yes

Sample with the relevant data found on the ad-locale.json:

**Ahsay Mobile**

A customer's review on Capterra [title]

Colors

Usage	Color Key	Description
Background	secondaryThemeColor	Background for Home Page – common on all pages
Device name	secondaryFontColor	n/a
Last backup date	secondaryFontColor	n/a

"Backup" button background color	primaryThemeColor	n/a
"Backup" button font color	primaryFontColor	n/a
"Restore" button background color	primaryThemeColor	n/a
"Restore" button font color	primaryFontColor	n/a

2.7 Backup Dashboard (Completed and Interrupted)

Images

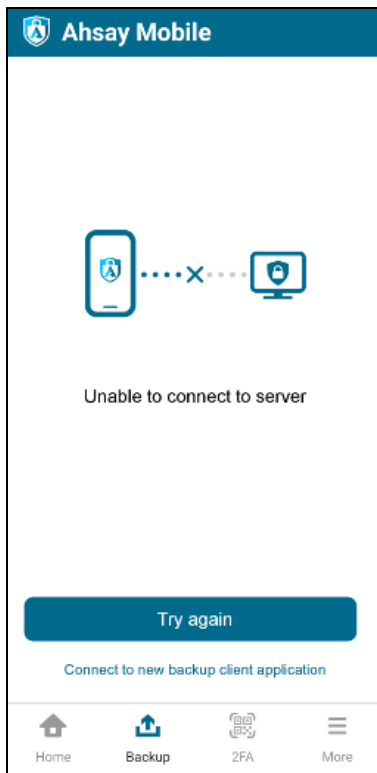

File name	Preview	Extension	Dimensions (width x height)	Usage
ico-photos-blue-box		png	40x40	Backup Dashboard – Photos backup data Backup settings - Photos
ico-photos-blue-box @2x		png	80x80	Backup Dashboard – Photos backup data

ico-photos-blue-box @3x		png	120x120	Backup Dashboard – Photos backup data
ico-videos-blue-box		png	40x40	Backup Dashboard – Videos backup data
ico-videos-blue-box@2x		png	80x80	Backup Dashboard – Videos backup data
ico-videos-blue-box@3x		png	120x120	Backup Dashboard – Videos backup data

Colors

Usage	Color Key	Description
Background	secondaryThemeColor	Background for Home Page – common on all pages
Device name	secondaryFontColor	n/a
Last backup date	secondaryFontColor	n/a
Progress bar	primaryThemeColor	For unfilled progress, the color is primaryThemeColor but with 50% transparency.
Progress bar font color	secondaryFontColor	The progress bar text shows the status of the backup.
“Done/Pause/Continue backup” button background color	primaryThemeColor	n/a
“Done/Pause/Continue backup” button font color	primaryFontColor	n/a
Backup Dashboard font color	secondaryFontColor	Shows the type of backup (e.g. Photos and Videos etc) and the number of items backed up.

2.8 Backup Page – Unable to connect to server

Images

File name	Preview	Extension	Dimensions (width x height)	Usage
ico-connection-lost-blue		png	240x240	Connection lost on the backup page
ico-connection-lost-blue @2x		png	480x480	Connection lost on the backup page
ico-connection-lost-blue @3x		png	720x720	Connection lost on the backup page

Colors

Usage	Color Key	Description
Background	secondaryThemeColor	Background for Home Page – common on all pages
“Try again” button background color	primaryThemeColor	n/a
“Try again” button font color	primaryFontColor	n/a
“Unable to connect to server” font color	secondaryFontColor	n/a
“Connect to new backup client application” font color	secondaryFontColor	n/a

2.9 Backup Page – Unable to access the media library

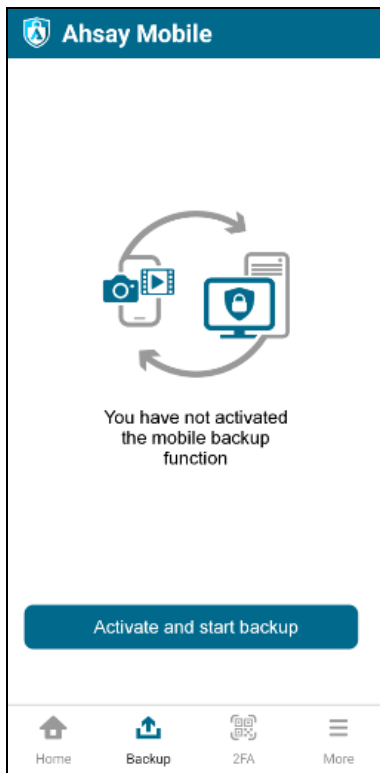

Images

File name	Preview	Extension	Dimensions (width x height)	Usage
ico-error-photos-white		png	246x240	External storage access permission denied on backup page
ico-error-photos-white @2x		png	491x480	External storage access permission denied on backup page
ico-error-photos-white @3x		png	737x720	External storage access permission denied on backup page

Colors

Usage	Color Key	Description
Background	secondaryThemeColor	Background for Home Page – common on all pages
“Grant permission” button background color	primaryThemeColor	n/a
“Grant permission” button font color	primaryFontColor	n/a
“Unable to access the media library” font color	secondaryFontColor	n/a

2.10 Backup Page – Mobile Backup Function Activation

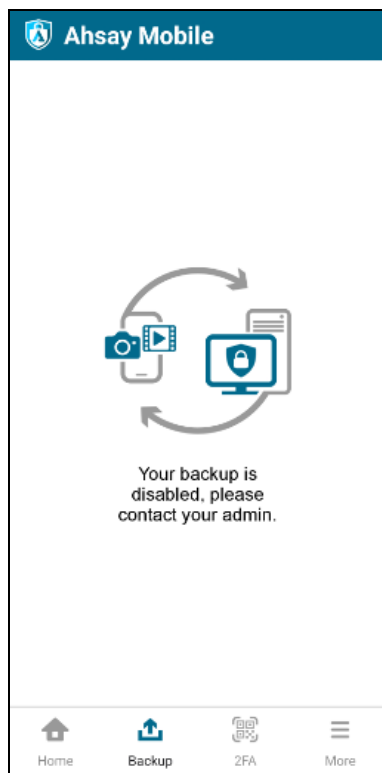

Images

File name	Preview	Extension	Dimensions (width x height)	Usage
welcome-ico-bkup		png	240x240	User has not yet activated the mobile backup function
welcome-ico-bkup @2x		png	480x480	User has not yet activated the mobile backup function
welcome-ico-bkup @3x		png	720x720	User has not yet activated the mobile backup function

Colors

Usage	Color Key	Description
Background	secondaryThemeColor	Background for Home Page – common on all pages
“Activate and start backup” button background color	primaryThemeColor	n/a
“Activate and start backup” button font color	primaryFontColor	n/a
“You have not activated the mobile backup function” font color	secondaryFontColor	n/a

2.11 Backup Page – Backup is disabled

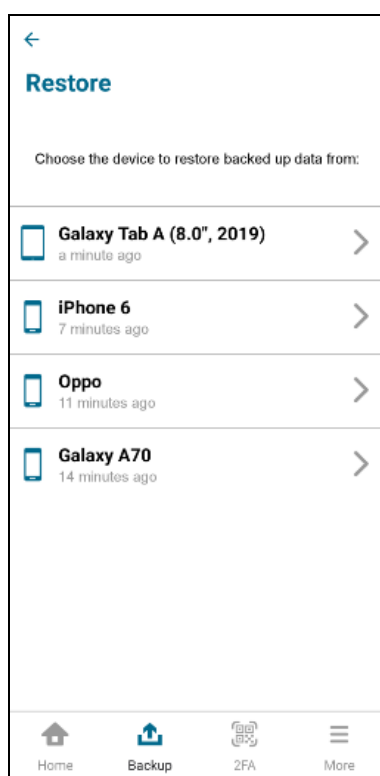

Images

File name	Preview	Extension	Dimensions (width x height)	Usage
welcome-ico-bkup		png	240x240	Backup is disabled for the user
welcome-ico-bkup @2x		png	480x480	Backup is disabled for the user
welcome-ico-bkup @3x		png	720x720	Backup is disabled for the user

Colors

Usage	Color Key	Description
Background	secondaryThemeColor	Background for Home Page – common on all pages
“Your backup is disabled, please contact your admin” font color	secondaryFontColor	n/a

2.12 Restore Dashboard – Backup Job Selection

Images

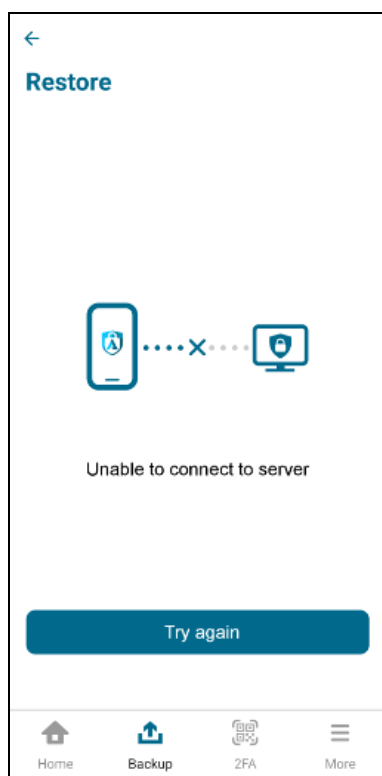

File name	Preview	Extension	Dimensions (width x height)	Usage
ico-mobile-blue-box		png	40x40	Restore Backup Job Selection – backup jobs from mobile devices
ico-mobile-blue-box @2x		png	80x80	Restore Backup Job Selection – backup jobs from mobile devices
ico-mobile-blue-box @3x		png	120x120	Restore Backup Job Selection – backup jobs from mobile devices
ico-tablet-blue-box		png	40x40	Restore Backup Job Selection – backup jobs from tablet devices

ico-tablet-blue-box@2x		png	80x80	Restore Backup Job Selection – backup jobs from tablet devices
ico-tablet-blue-box@3x		png	120x120	Restore Backup Job Selection – backup jobs from tablet devices

Colors

Usage	Color Key	Description
Background	secondaryThemeColor	Background for Home Page – common on all pages
“Restore” header text	primaryThemeColor	n/a
“Choose the device to restore backed up data from.” font color	secondaryFontColor	n/a
Device name of backup job	secondaryFontColor	n/a
Back button	primaryThemeColor	The color for the back button is also applicable for all other navigation buttons within the application especially on modal type pages. For example, the close button will also have the same color.

2.13 Restore Dashboard – Backup Job Selection (Unable to connect to server)

Images

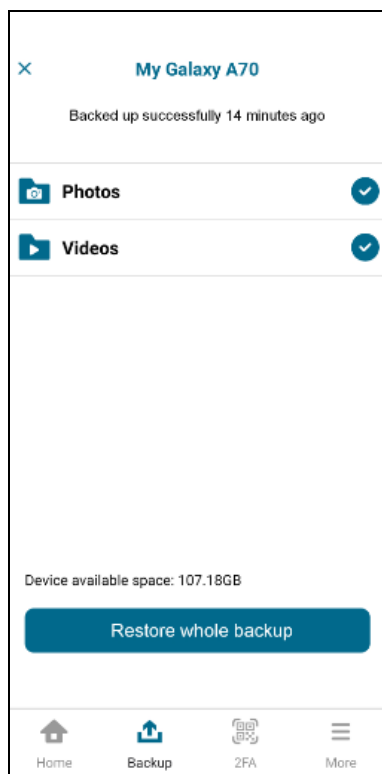

File name	Preview	Extension	Dimensions (width x height)	Usage

Background	secondaryThemeColor	Background for Home Page – common on all pages
Log Settings header title	primaryFontColor	n/a
“Select what types of log you want to display” text	secondaryFontColor	n/a
Log type label	secondaryFontColor	n/a

3 Application Icons

The application icon must have the following dimensions:

• Android

Sample:

Filename: ic_launcher.png

Required dimensions (width x height): 192px x 192px

NOTE

PNG image must be at least 192px x 192px.

• iOS

Sample:

Filename: 1024.png

Required dimensions (width x height): 1024px x 1024px

NOTE

PNG image must be at least 1024px x 1024px.

4 Application Name

For customization, the user can also modify the application name based on the language settings. The user can modify the application name on 31 supported languages. For the list of supported languages please refer to [Chapter 1.3](#).

In order to change the application name for each language, the user must provide a **strings.xml** file with the following structure for each supported language:

```
<resources>
    <string name="app_name">NAME_OF_YOUR_CUSTOM_BACKUP_APP</string>
</resources>
```

For example:

```
<resources>
    <string name="app_name">Superb Mobile</string>
</resources>
```

A sample of the **strings.xml** file can be found in the AhsayMobileCustomization.zip file <https://download.ahsay.com/support/document/v8/AhsayMobileCustomization.zip>.

It can be located in the **\Text\Android\values_folder\$**.

Example, for Spanish the **strings.xml** file can be found in **\Text\Android\values-es**.

5 Splash Screen and Background (iOS only)

For the splash screen in iOS only, the user needs to provide these two files: app-icon-splash.png and app-bg.png.

Filename: app-icon-splash.png

Required dimensions (width x height): 800px x 800px

NOTE

File must be a PNG image.

Filename: app-bg.png

Required dimensions (width x height): 1000px x 1000px

NOTE

File must be a PNG image.

Here is a sample of how the splash screen would look in iOS:

6 Notification Contents – Localization Files for App Notifications (notifications.xml)

Ahsay Mobile also supports notifications for the mobile application in the supported 31 languages.

For customization, users can provide a notifications.xml for each supported language. For the list of supported languages please refer to [Chapter 1.3](#). A sample of the **notification.xml** file can be found in the AhsayMobileCustomization.zip file

<https://download.ahsay.com/support/document/v8/AhsayMobileCustomization.zip>.

It can be located in the **\Text\Android\values_folder\$**.

Example, for Spanish the **notification.xml** file can be found in **\Text\Android\values-es**.

Sample file (notification.xml)

```
<?xml version="1.0" encoding="utf-8"?>
<resources>
    <string name="notification_backup_running">Running</string>
    <string name="notification_backup_finished">Backup Finished</string>
    <string name="notification_backup_stopped">Backup Stopped</string>
</resources>
```
